VENDORS

| Lot | Vendor |
|----------------------------|--|
| 14, 15, 16 | Cyril & Keith Anderson - Springfield, Lismacaffrey, Co. Westmeath |
| 4, 5, 6 | Mark & Audrey Crowe - Killeen Road, Dunsany, Co. Meath |
| 10, 11, 20, 9 | John Lynch - Ballinascrew, Ballinalee, Co. Longford |
| 1, 17, 18, 19, 2, 3 | Michael Mcgrath - Edmondstown, Monelia, Mullingar, Co. Westmeath |
| 12, 13 | Stephen & Michaela Mulvey - 16 St Peters Park, Dunboyne, Co. Meath |
| 7, 8 | Brendan Rooney - Drumfad, Moneygold, Grange, Co. Sligo |

Important: The Pedigree Information printed in this catalogue is as supplied by or on behalf of the breeder. The responsibility for the accuracy of the information therefore rests solely with the breeder and not Sheep Ireland.

Sheep Ireland EuroStars

How to select a ram fit for purpose?

Evaluations should **never be the only tool** you use when selecting animals for breeding. Animals must also be examined to ensure the animal is also physically correct; an animal that is not physically correct (ie. mouth, feet, etc.) cannot compensate for this fault regardless of its evaluation and should be avoided for breeding purposes.

EuroStars – How to interpret them

- Each star represents where the animal ranks on each index in 20% bounds
- **One star** represents the **bottom 20%** of the breed
- **Five star** represents the **top 20%** of the breed
- The higher the stars, the higher the predicted profitability of that animal

Rank

- This figure indicates more precisely where the animals rank within the breed. eg. Top 11% (see example below)
- This is displayed with the black pointer, the further to the right these are on the scale, the better its position with the breed.

Acc % (Accuracy%)

- This figure is very important as it represents the amount of data behind each evaluation. Where Acc is low, much less emphasis should be placed on the evaluation, and vice versa.
- This is displayed with the grey pointer, the further to the right these are on the scale, the more information this evaluation is based on. e.g. Acc 43% (see example on previous page)

| Acc % parameters | |
|-------------------------------|-------------------------|
| V.Poor , 0% - 14% | Poor , 15% - 24% |
| Fair , 25% - 34% | Good , 35% - 49% |
| V.Good , 50% and above | |

Indexes & Traits

- 1) Replacement (€1.126)** – If a farmer desires a ram to breed both lambs both for slaughter and replacement ewe lambs then they should select a ram based on this index. The bulk of this index is a combination of Lamb Survivability, Days to Slaughter, No. of lambs born & Daughters milk. The € value beside the index represents the difference in profit that each lamb sired from this ram will have.
- 2) Terminal (€0.542)** – If a farmer desires a ram to breed only lambs for slaughter then they should select a ram based on this index. The bulk of this index is a combination of Lamb Survivability and Days to Slaughter. The € value beside the index represents the difference in profit that each lamb sired from this ram will have.
- 3) Lamb Survivability** – This ranks animals based on lambing ease and lamb survival rate. Every positive % point on this index is an extra lamb surviving to 40 days and vice versa.
- 4) Days to Slaughter** – This ranks animals on their genetic ability to grow. The index associated with this trait represents the difference in the predicted number of days required for the progeny of this ram to reach the desired slaughtered weight compared with other animals of the same breed.
- 5) No. of Lambs Born** – This ranks animals based on the predicted prolificacy of the females from this animal compared with other animals of the same breed.
- 6) Daughters Milk** – This ranks animals based on the predicted milking performance of their daughters compared with other animals of the same breed.

RamSearch.ie

The Sheep Ireland Online Ram search is also available at ramsearch.ie, you can use this tool to get the most up to date evaluations for a ram, to **search for rams by county, breed and current evaluation ratings**.

Contact Us

Find out more about EuroStar rams, LambPlus or the Online Ram search you can visit www.sheep.ie, E-mail query@sheep.ie, or Call us on **1850 601 901**

Irish Vendéen Sheep Society - Special Sale Rules

1. All Pedigree Sheep to be sold in Euro.
 2. A commission will be charged to the buyer of 5% of the purchase price + VAT at 4.3% on the commission.
 3. The Auctioneers will pass from any pedigree animal not receiving bids to the value of €250 for males. Bids will be sought in increments at the Auctioneers discretion.
 4. Any animals in the Sale Premises which are sold by private treaty after the Auction are subject to the full commission on the price realised and all such transactions must be passed through the Auctioneers.
 5. All Sheep offered for sale at one year old or older are to be bare clipped after the 1st April preceding the sale. No sheep are to be dressed apart from tidying heads and legs. Tails may be squared off.
 6. All sheep to be sold in the appropriate class and in the owner's flock group. All sheep born on or after 1st December 2016 are classified as lambs. Those born between 1st December 2015 and 30th November 2016 are classified as shearlings.
 7. The order of sale in each group was by ballot (arranged by the Sales Committee). Each lot will be sold before the next lot is commenced. If unsold, lots 1 to 5 in the sale may be re-run at the end of the sale. No other re-runs are permitted. The Champion and Reserve Champion may be sold anywhere with the Champion having first option of selling order.
 8. All sheep to be sold singly and will be identified by lot number.
 9. All sheep will be presented for inspection and weighing before being penned for sale at the stated times. The decision of the inspectors will be final.
 10. The sales committee has made every effort to ensure that the information presented is accurate and correct as supplied by the Vendor. The Irish Vendéen Sheep Society and its sales committee accept no liability for any errors therein or any consequences of such errors.
- The following minimum weight limits apply:** Shearling rams: 85 kg; Ram lambs: 65 kg
