IVSS Ewe sale – Saturday 30th October, 2021

Welcome to the 21st Annual ewe sale run by the Irish Vendéen Sheep Society. This year we have a good entry available to prospective buyers, that we trust will prove to be very good quality sheep. The Irish Vendéen Sheep Society have had a strong year in terms of sales of rams. The Society is actively recruiting new members. New members who purchase 2 or more ewes at this sale will receive free membership to the Society in 2022. The Council of the society wish you the best of luck with any ewes you may purchase at this sale.

IVSS sales committee

Irish Vendéen Sheep Society Sale Rules

1. All Pedigree Sheep to be sold in Euro.
2. A commission will be charged to the buyer of 5% of the purchase price + VAT at 4.3% on the commission only.
3. The Auctioneers will pass from any pedigree animal not receiving bids to the value of €250 for ewe lambs and €300 for ewes. Bids will be sought in increments at the Auctioneers discretion.
4. Any animal in the Sale Premises which are sold by private treaty after the Auction are subject to the full commission and must be passed through the Auctioneers.
5. Sheep offered for sale at one year old or older are to be bare clipped after the 1st April preceding the sale. No sheep are to be dressed apart from tidying heads and legs. Tails may be squared off.
6. Sheep to be sold singly in their appropriate class. Those born on or after 1st Dec. '20 are classed as lambs and between 1st Dec. '19 and 30th Nov. '20 as shearlings.
7. The order of sale in each group was by ballot (arranged by the Sales Committee). Each lot will be sold before the next lot is commenced. If unsold, lots 1 to 5 in the sale may be re-run after lot 12. No other re-runs are permitted. The Champion and Reserve Champion may be sold anywhere in their appropriate section with the Champion having first option of selling order.
8. All sheep will be subject to inspection (and weighing - ewe lambs minimum weight 55 kg) before penning for sale between the stated times. All ewes will be scanned for pregnancy on morning of sale, those ewes not in lamb, or ewe lambs (Class 3) in lamb or who fail inspection are to be removed from the premises. The decision of the inspectors will be final.
9. The sales committee has made every effort to ensure that the information presented is accurate and correct as supplied by the Vendor. The Irish Vendéen Sheep Society and its sales committee accept no liability for any errors therein or any consequences of such errors.

VENDORS

Lot	Vendor
22, 23, 32, 33	Joseph Cannon - Timolin, Banagher, Co. Offaly
1, 5, 6, 11	Ciaran Coughlan - Noggus, Ferbane, Co. Offaly
3, 4, 10, 18, 19, 28, 29	Mark And Audrey Crowe - Killeen Road, Dunsany, Co. Meath
16, 17, 27	Shane And Sonny Jennings - Cahergal, Tuam, Co. Galway
9	John Lynch - Ballinascrew, Ballinalee, Co. Longford
2, 7, 8, 14, 15, 26	Ena Nagle - Landmark, Ballyloughy, Mitchelstown, Co. Cork
12, 13, 24, 25	Cheryl O Brien - Springvale, Kildorrery, Co. Cork
20, 21, 30, 31	Brendan And Carmel Rooney - Drumfad, Moneygold, Grange, Co. Sligo

Important: The Pedigree Information printed in this catalogue is as supplied by or on behalf of the breeder. The responsibility for the accuracy of the information therefore rests solely with the breeder and not Sheep Ireland.

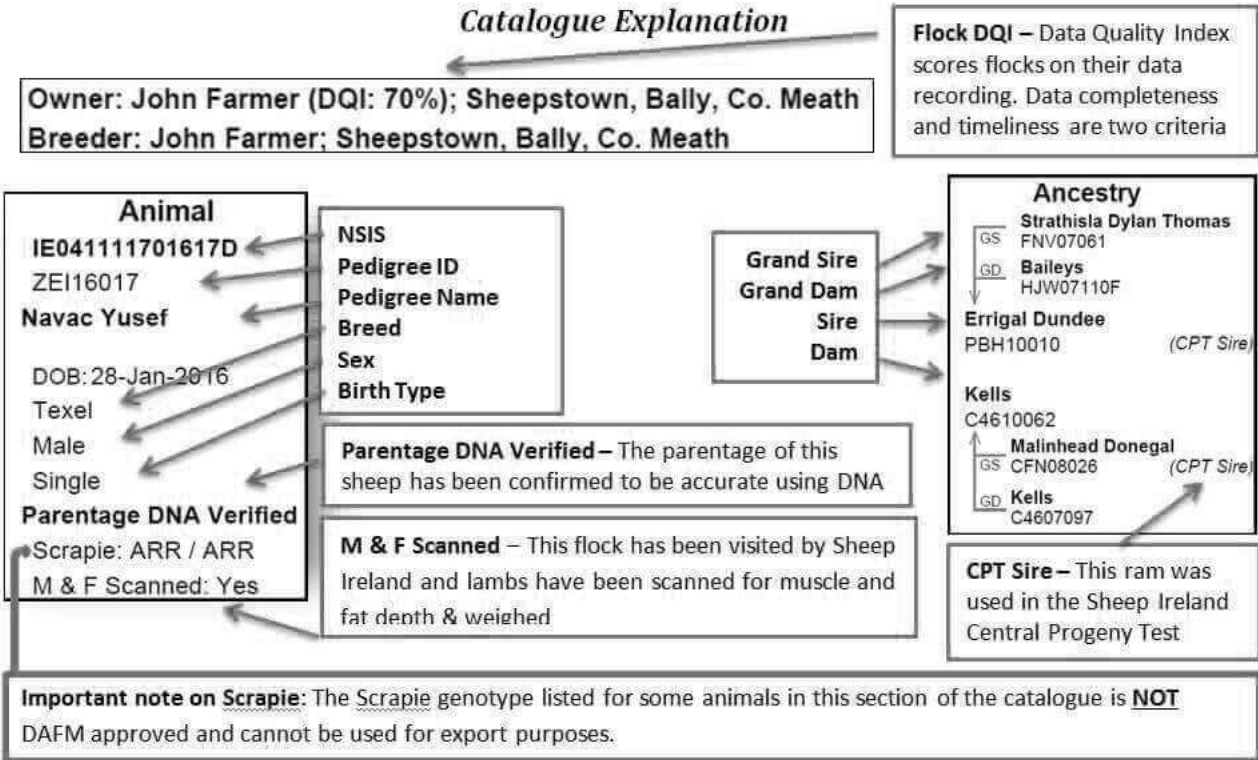

Sheep Ireland EuroStars

How to select a ram fit for purpose?

Evaluations should **never be the only tool** you use when selecting animals for breeding. Animals must also be examined to ensure the animal is also physically correct; an animal that is not physically correct (ie. mouth, feet, etc.) cannot compensate for this fault regardless of its evaluation and should be avoided for breeding purposes.

Catalogue Explanation

EuroStars – How to interpret them

- Each star represents where the animal ranks on each index in 20% bounds
- **One star** represents the **bottom 20%** of the breed for that trait
- **Five star** represents the **top 20%** of the breed for that trait
- The higher the stars, the higher the predicted profitability of that animal

Animals that only have the outline of a star represent animals that have within flock evaluations, this means the star rating of these animals can not be compared to any other animals from a different flock.

Rank

- This figure indicates more precisely where the animals rank within the breed. eg. Top 11% (see example below)
- This is displayed with the black pointer, the further to the right these are on the scale, the better its position with the breed.

Acc % (Accuracy%)

- This figure is very important as it represents the amount of data behind each evaluation. Where Acc is low, much less emphasis should be placed on the evaluation, and vice versa.
- This is displayed with the grey pointer, the further to the right these are on the scale, the more information this evaluation is based on. e.g. Acc 43% (see example on previous page)

Acc % parameters	
V.Poor , 0% - 14%	Poor , 15% - 24%
Fair , 25% - 34%	Good , 35% - 49%
V.Good , 50% and above	

Indexes & Traits

- 1) Replacement (€1.126)** – If a farmer desires a ram to breed both lambs both for slaughter and replacement ewe lambs then they should select a ram based on this index. The bulk of this index is a combination of Lamb Survivability, Days to Slaughter, No. of lambs born & Daughters milk. The € value beside the index represents the difference in profit that each lamb sired from this ram will have.
- 2) Terminal (€0.542)** – If a farmer desires a ram to breed only lambs for slaughter then they should select a ram based on this index. The bulk of this index is a combination of Lamb Survivability and Days to Slaughter. The € value beside the index represents the difference in profit that each lamb sired from this ram will have.
- 3) Lamb Survivability** – This ranks animals based on lambing ease and lamb survival rate. Every positive % point on this index is an extra lamb surviving to 40 days and vice versa.
- 4) Days to Slaughter** – This ranks animals on their genetic ability to grow. The index associated with this trait represents the difference in the predicted number of days required for the progeny of this ram to reach the desired slaughtered weight compared with other animals of the same breed.
- 5) No. of Lambs Born** – This ranks animals based on the predicted prolificacy of the females from this animal compared with other animals of the same breed.
- 6) Daughters Milk** – This ranks animals based on the predicted milking performance of their daughters compared with other animals of the same breed.

RamSearch.ie

The Sheep Ireland Online Ram search is also available at ramsearch.ie, you can use this tool to get the most up to date evaluations for a ram, to **search for rams by county, breed and current evaluation ratings**.

Contact Us

Find out more about EuroStar rams, LambPlus or the Online Ram search you can visit www.sheep.ie, E-mail query@sheep.ie, or Call us on **023 882 0451**
